

# COMPLETE AIR AND POWER SOLUTIONS

Built tough, engineered to last  
and backed by our 24/7 nationwide  
service guarantee.

# ABOUT CAPS.

*In 1980, CAPS started as a simple one-man operation. Today, CAPS is Australia's largest independent compressed air and power generation provider with over 200 employees.*

## **ENGINEERED AROUND YOU**

At CAPS our core focus is on providing our customers world-class products, smart technical advice and solid aftermarket services. With a portfolio of over 2,500 products, you can rely on CAPS for an extensive range of quality industrial equipment, including air compressors, power generators, blowers, portable equipment, nitrogen generators, air tools, cordless tools and spare parts.

Whatever business you are in, we understand that you need energy efficient and reliable products that are guaranteed to work. Every product we have launched was conceived from the practical, real-world needs we see every day at our customer's facilities.

We strive to deliver an exceptional experience for our customers. With solutions engineered around you, we operate from 9 conveniently located branches. Our precision engineered industrial products are tested in ISO accredited testing facilities to Australian industry standards to ensure that they are built to last, and are backed by our renowned 24/7 nationwide service guarantee; whatever you need, CAPS has it covered.

# WHEREVER YOU ARE.

*CAPS offers over 3 decades of proven cross-sector engineering expertise to deliver smarter productivity and ground support to customers throughout Australia and abroad.*

*With an unwavering commitment to source global brands that are guaranteed to perform in demanding applications and environments, whatever you need, CAPS has it covered.*

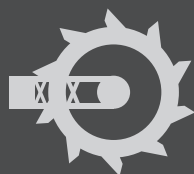

## // HIRE & RENTAL

**ROBUST AND RELIABLE.** Your equipment needs to consistently start the first time, cope with rough handling and deliver strong performance.

## // ENERGY

**DYNAMIC FLEXIBILITY.** To drive maximum profitability on your site, your service partner needs to move swiftly with changes in your business.

## // MINING

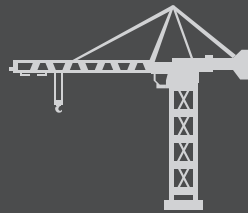

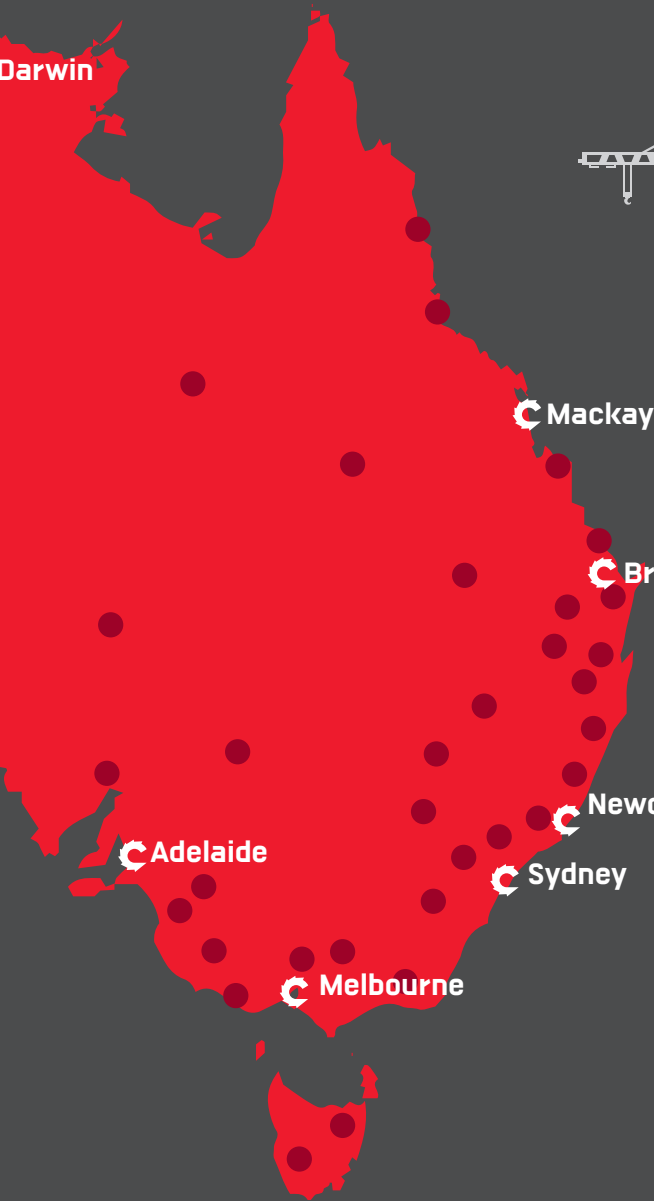

**RAPID RESPONSE.** Easy and immediate access to technical support is essential when you are on isolated mine sites.

## // OIL & GAS

**100% DEPENDABILITY.** You need an approachable, highly knowledgeable provider to work closely with you to best maximise all of your technologies on site.

## // INFRASTRUCTURE

**ALWAYS ON.** You'll have complete confidence in your equipment to ensure that they're always working uninterrupted.

# 24/7 NATIONWIDE SUPPORT

OVER 50 STOCKIST DISTRIBUTORS

## // MANUFACTURING

**SUSTAINABLE CHOICES.** Being able to identify opportunities to contribute to your bottom line and enhance your energy efficiency is essential.

## // PRIMARY INDUSTRIES

**CONSISTENT OUTCOMES.** Preventative maintenance programs deliver extended machine life and running efficiency, driving down overall costs.

## CUSTOM PROGRAMS

We know the needs of every site are different. Our comprehensive fixed price service packages are fully customisable, ensuring that all of your equipment is working at its best.

## POWER GENERATORS

From single industrial standby generators through to custom turnkey cogeneration solutions, CAPS can meet your application needs.

## AIR

Comprehensive range of over 120 reciprocating, rotary screw, portable diesel, and centrifugal air compressors.

## BLOWERS

Positive displacement (lobe), single and multi-stage centrifugal, high speed turbo, and rotary screw blower technologies.

# COMPLETE AIR & POWER SOLUTIONS

CAPS makes it simpler and easier by offering an extensive range of products, giving you a one stop shop for all of your industrial equipment requirements.

## SPARE PARTS

A complete range of spare parts and accessories to help you get the most out of your industrial equipment.

## TOOLS

Over 600 types of industrial air and power tools that deliver guaranteed performance.

## HIRE & RENTAL

When you need the flexibility of a short term hire, long term hire, finance arrangement or a rent-to-buy option, CAPS can cater for your needs.

## 24/7 SUPPORT

CAPS covers industries that operate continuously with emergency 24/7 service and parts support.

# UNLIMITED OPTIONS.

*With your needs always being our number one focus at CAPS, we've worked to provide unlimited options to give you the competitive edge.*

## **PUTTING YOU FIRST**

CAPS' extensive product portfolio has given us considerable experience in developing solutions to meet your needs and achieve the best long-term outcomes.

You will benefit from our unparalleled flexibility as a wholly Australian owned, independent supplier, where we can offer you the widest portfolio of leading global brands and can source additional best-in-class products to create a well engineered solution.

CAPS put you and your business priorities first. We carefully consider your product requirements and objectives to develop a solution that delivers genuine performance, environmental and bottom-line benefits.

We support you by giving complete access to a range of options including customisation, service plans, support, technical advice and finance packages.

Our goal is always to deliver superior value.

# ON TIME. IN SPEC.

*CAPS can custom engineer anything, anywhere, to spec,  
in required time frames to Australian industry standards.*

## **ENGINEERING EXCELLENCE**

Drawing upon over 35 years of global expertise, we have worked closely with many customers to design and deliver complex project packages. We're very proud of our unrivalled project experience and capability to manage all of your end-to-end design and engineering, commissioning and installation requirements.

Our access to the widest portfolio of leading global brands and unlimited options allows us to offer precision engineered, robust and rugged industrial solutions that will economically and effectively meet your technical, quality and documentation requirements.

## **PERFORMANCE TESTING**

CAPS is one of very few Australian owned and operated, ISO9001 accredited, compressor and power generation businesses to have a integrated engineering, manufacturing, assembly and testing facility on site. This facility allows CAPS to provide the highest levels of quality control over every aspect of your customised, engineered product build.

CAPS is capable of testing our engineered products to Australian and International standards and to simulate a range of ambient temperature conditions as experienced in the harsh Australian climate.

# SERVICE SMART.

*CAPS deliver a range of flexible service packages designed to increase uptime and productivity. We think beyond the box to increase your bottom line.*

## **FLEXIBLE PLANS**

We know the needs of every site are different. Our comprehensive fixed price service packages are designed around your most common needs, with fully customisable plans available to ensure that all of your equipment is working at its best.

## **BOTTOM LINE THINKING**

We're always on the lookout for ways to maximise your profitability. All maintenance activities are designed by CAPS to suit Australian business needs, helping us to identify how we can improve your operations.

## **RAPID RESPONSE**

Whatever you need, we're just a phone call away for any technical advice, support, products or parts. With quick 24/7 nationwide support, we have over 65 trained technicians and 9 distribution centres across Australia with stock on hand for quick delivery of spare parts and products.

## **GENUINE PARTS**

Maintaining your equipment with genuine parts has been proven to provide the best protection of your investment. All of our genuine spare parts are subject to endurance testing in Australia's tough conditions and meeting strict requirements for safety, reliability and quality.
